

Anthropology

Contract	Term	Course	Contract Title	Description
383082	Spring 2018	ANTH 5555U	Furthered Research in ARCH 5555U	<p>For this project I will assist Professor Danielle Cook in her various anthropological endeavors by helping her sort, clean, catalogue, and archive various artifacts and human/faunal remains from the Abercrombie archaeological site (1RU61). This project will start out in the lab as Professor Cook, myself, and my fellow group members go through the Abercrombie collection and determine what needs to be done. Once we have gotten a feel for the collection we will begin our research and begin writing our paper. Towards the end of the semester, I will put together a Tower Day presentation for my group and we will present our findings at the conference.</p>
